

We hold the privacy and security of our site visitors in the highest regard. The following information explains what kind of information is gathered on our sites and how that information is used.

What's collected and what's not?

You can visit our site without telling us who you are or revealing any personal information. While IP addresses (the Internet address of a computer) are logged to track a user's session, the user remains anonymous. Tracking IP addresses gives us an idea of which parts of our site users are visiting and how long they spend there. We do not link IP addresses to anything personally identifiable. This means that a user's session is tracked, but the user is anonymous. The user's browser also lets us know the type of computer and operating system being used.

How is email information used?

Email addresses are used to send you information that you requested or to confirm enrolments only.

What about phone and fax numbers?

We request a phone and/or fax number in case we need to contact you. However, this information is entered into our personal customer database only. We NEVER sell, rent, or loan our list of customer fax or phone numbers. Nor any other information about customers.

Please bring to our attention any instance where you feel these policies have been violated. We can be reached via email or phone.

Thank you.
